

LIST OF ACCEPTABLE STANDARDS TO OHSAS 18001:1999

IRCA has determined that, for the purposes of compliance with the OH&S auditor certification criteria, the standards referred to in this document, are considered to be acceptable alternatives to OHSAS 18001:1999.

IRCA's evaluation of these standards consisted of a technical review for the purposes of validation of acceptability of an applicant's claim of experience "equivalent" to auditing to OHSAS 18001:1999. This evaluation is used only to determine whether audit experience using these standards meets the audit experience requirements stipulated in the IRCA auditor certification criteria. It is not intended as a technical review of the equivalence of a standard to OHSAS 18001:1999.

IRCA will update and reissue this list periodically.

IRCA Serial No.	AUTHORITY/TITLE	NUMBER OR REFERENCE	COUNTRY OF ORIGIN
